Held annually, the O'Berry Center Foundation Golf Tournament raises critical funds to provide assistive technology devices that empower and enrich the lives of children and adults with developmental disabilities.

Pictured above: Layton

Three year old Layton received a P-Pod positioner giving him the support he needs to sit safely and comfortably. These adaptive tools help Layton better engage in play, therapy, and everyday activities, allowing him to interact more with his surroundings and the people around him. Because of generous support from donors, Layton now has greater comfort, stability, and opportunities to grow—proof that every contribution makes a meaningful difference in a child's life.
